EDUCATION

Bachelor's of Technology (Computer Science and Engineering) 08/2019 - 05/2023
*Guru Gobind Singh Educational Society's Technical Campus - **CGPA** - 8* *Bokaro, India*

Intermediate (CBSE Board) - Percentage - 63.6% 2019
Pt. B.P Saraswati Vidya Mandir *Bokaro, India*

Matriculation (JAC - State Board) - Percentage - 81.8% 2017
Birsa Saraswati Vidya Mandir *Bokaro, India*

EXPERIENCE

Full Stack Developer 02/2024 - Present
Designer Street

- Architected and implemented dynamic front-end interfaces using modern frameworks, including React.js, Angular, and Next.js, with a strong focus on performance, accessibility, and responsive design.
- Built highly reusable and modular components in React, utilizing tools such as Redux for state management, React Router for client-side routing, and integrating third-party libraries to enhance functionality.
- Engineered and optimized RESTful APIs and microservices using Node.js, improving data flow and service interactions between client and server layers.
- Ensured cross-platform optimization and responsiveness of applications
- **Tech Stack -** ReactJS, AngularJS, JavaScript(ES6+), NodeJs, Mongodb, Visual Studio, Git.

Software Engineer Associate 10/2023 - 01/2024
Blackcoffer (OPC) Pvt. Ltd *Duration - 4 months*

- Develop and maintain the user interface (UI) of the web application.
- Creating API's in node and integrate it in application.
- Collaborate with designers and backend developers to work on various projects.
- Optimize application performance and ensure responsiveness.
- Troubleshoot and debug UI issues to improve usability and user experience.
- **Tech Stack -** AngularJs, ReactJs,NodeJs,MongoDb,Javascript,Typescript,RxJs,Figma,Visual Studio Code,Git.

Frontend Developer Intern 06/2022 - 11/2022
Advancedware Technologies Pvt ltd *Duration - 6 months*

- Develop and maintain the user interface (UI) of the web application.
- Create and modify various components using the Angular framework.
- Collaborate with designers and backend developers to implement UI designs and integrate them with the application.
- Optimize application performance and ensure responsiveness.
- Participate in Agile development processes and meetings.
- **Tech Stack -** AngularJs,NodeJs,Typescript,RxJs,Figma,Visual Studio Code,Git.

PROJECTS

Toypebble ⤢

- Designed and developed ToyPebble, a subscription-based toy delivery website catering to parents looking to provide educational and engaging toys for their children conveniently.
- Collaborated closely with stakeholders to define subscription models and user experience requirements.
- Integrated Razorpay as the payment gateway to manage secure and recurring payments, enabling smooth subscription transactions for various plans.
- Implemented a responsive front-end using React.js and Material-UI to ensure seamless browsing and subscription management across devices.
- Implemented automated email notifications for subscription updates and delivery statuses, improving customer communication and satisfaction.
- Received positive feedback from parents for providing a convenient and educational toy subscription service.

Leon's ⤢ |

- Implemented the user interface (UI) for dynamic and responsive user experience.
- Enhanced user satisfaction with attractive and dynamic Interface.
- Collaborated with Leon's management to gather requirements and define the project scope.
- Received commendation from Leon's management for delivering a scalable, high-performance solution that met all business objectives.

Monti Angel International School ⤢

- Developed a comprehensive and interactive website for Monti Angels International School to enhance its online presence, provide essential information to parents and students, and streamline administrative processes.
- Successfully launched the website within the projected timeline, resulting in a (50 percent) increase in online inquiries and admissions.
- Received positive feedback from school administrators for delivering a high-quality, functional, and visually appealing website.

TECHNICAL SKILLS

Languages: C++,C,Python,JavaScript

Design Tools: Figma,Canva

Technologies/Frameworks: Web development, ReactJs, SharePoint, Angular, Typescript, Bootstrap, NextJs, NodeJs, MongoDB, SQL, Tailwind CSS, JQuery, VS Code, GitHub, Git, SDLC

CERTIFICATIONS AND ACHIEVEMENTS

- ⤢ COHORT - 100x Dev Course by Harkirat Singh
- ⤢ Participate in Flipkart Grid - 4.0 Software Development Challenge
- ⤢ Python and DJango Full Stack Web Developer Bootcamp
- ⤢ Participate in Tata Imagination Challenge
